

KAUAI PRINCIPAL  
NAMED INSPECTOR  
GENERAL BY BOARDW. C. Avery To Succeed George  
S. Raymond As Head of  
All SchoolsLATTER GOES TO MAUI,  
MCCLUSKEY TO KAUITeachers Caught Cheating in Ex-  
aminations Summarily Dealt  
With and Discharged

W. C. Avery, principal of the Kauai High School at Lihue, was appointed by the board of education at its meeting yesterday as inspector general of schools and will take office shortly.

At the former board meeting William McCluskey, supervising principal for Maui, had been appointed to this office, to succeed George S. Raymond, incumbent. All this was changed yesterday. According to yesterday's decision Mr. Avery comes to Honolulu as inspector general; George S. Raymond will succeed William McCluskey in Maui as supervising principal and Mr. McCluskey takes Mr. Avery's place in Lihue as principal of the Kauai High School.

Raymond will leave for Wailuku, Maui, on August 27; Mr. McCluskey will leave shortly for his new post in Kauai, and Mr. Avery, who has just returned to Kauai, will be back in Honolulu within a week or two.

The last legislature abolished the position of inspector general of schools, this abolition to take effect the last of the present year, but in place of this position it created that of statistician of the board of education. Under the present plan, when Mr. Avery comes to be inspector general of schools he will automatically become the statistician of the board.

## Much Business Transacted

All the commissioners were present at the meeting yesterday and concluded all the work before them by the close of the day. The next meeting will be held, it is expected, in December. Those present yesterday were William H. Smith of Hilo and Mrs. J. A. Maguire of Kona, the Big Island members; D. C. Lindsay of Maui; Mrs. Theodore Richards and Capt. B. G. Black of Oahu and Honolulu, and Eric A. Knudsen for Kauai, in addition to Superintendent Kinney, chairman of the board and George S. Raymond. This was the first meeting of the board attended by Mrs. Maguire since her appointment some weeks ago.

All the appointments of teachers made by Superintendent Kinney since the former meeting of the board were approved and he was further authorized to make such additional appointments as shall be necessary, with the consent and approval of the commissioner for the particular school district concerned.

It was learned yesterday that about seventy mainland teachers employed by the board for the coming school year will arrive within two or three weeks from the Coast. They will be placed by Superintendent Kinney.

The board of examiners was reorganized and now consists of the following: W. C. Avery, George S. Raymond, James C. Davis, Eugene Horner, Cyril O. Smith and Miss Bernice Hundley. The board in charge of grade examinations, also reorganized, is now made up as follows: W. C. Avery, Miss Bernice Hundley, Eugene Horner, Miss Ida C. McDonald, James C. Davis, George S. Raymond, and Superintendent Kinney as chairman ex officio.

The rules governing high and normal school examinations and promotions were revised. They remain practically the same as in the past, but appear now in a new form or dress, so to say.

Superintendent Kinney was authorized to arrange for the transportation of pupils of the school for defectives. They will be taken to and from school daily in automobiles and the Territory will foot the bill.

## Change in Books of Study

The board, on recommendation of this committee, also decided to change the geography now in use, but this will not take effect before the beginning of the school year after the coming one, thus not becoming operative until early in September, 1918. This allows parents time in which to prepare to foot the bills for the change in the geography books.

So many different opinions were received from various teachers relating to the new Hawaiian primer composed by Miss Harriet B. Needham, copies of which were sent by the department to a large number of principals and teachers, that it was decided best to use the book on trial in the schools before adopting the primer finally. It was also decided to take no action along the line of further work in the compilation of Hawaiian readers until after the result of the trial of the primer is known.

## Miss Needham Voted Pension

The commissioners decided that the department print 1500 copies of the primer and place the book in the schools where it can be tried to the best advantage. The work will probably be done by the printing department of the Territorial Normal School.

Miss Harriet B. Needham was voted the maximum annual pension, which is four hundred dollars.

328,000 POUNDS  
OF RICE EACH  
MONTH FOR BOOZEEnough To Feed Thousands Used  
For Manufacture of Beer and  
Sake In Territory. Food Com-  
mission Figures Show

Approximately 328,000 pounds of rice a month, 3,936,000 pounds a year, is used in making sake and brewing beer in the Territory of Hawaii. Letters showing this are in the office of the food commission.

In answer to inquiries from the food commission as to how much rice and other grain is used each month in the making of sake and beer the various manufacturers and brewers sent in replies. These replies show that the Hawaiian Sake Brewery uses 100,000 pounds, Honolulu Sake Brewery 150,000, Honolulu Brewing and Malting Company 45,000 and Hilo Sake Brewery 38,000. In addition to this there are used 6000 pounds of bran and 80,000 pounds of malt monthly.

Nearly all of this rice comes from Japan. After its use in the making of beer or sake it is sold for stock or chicken food at about a cent a pound and sometimes used by Japanese in the making of a soup or making pickles.

Serves Him Right;  
He Didn't Pay  
His Frontage Tax

Nobody loves a rich man and uneasy runs the path of the plutocratic politician. "Link" McCandless is the latest malefactor of great wealth to get it in the neck at the hands of an unsympathetic board of supervisors.

August 25, last year, "Link's" car sank in a slough on the Pali Road, on the way to Kaseohe, and sustained considerable damage to the amount of \$430.

At last night's meeting of the board a communication was read from Attorney E. C. Peters, representing McCandless, expressing surprise that his claim for damages had not been adjusted, and stating that fresh damage to the car, amounting to \$280, had developed during the past year, and that the total claim was now an even \$700, and wouldn't the board please settle it at their earliest convenience.

The supervisors instructed Clerk Buffum to make no uncertain tones to write to McCandless and make it strong and plain that the board didn't recognize his claim for damages and had no slightest intention of ever doing so.

Supervisors Petrie and McClellan didn't even suggest that the city furnish the poor petitioner with one of its discarded cars, by way of compensation.

TOURIST TABU ORDER  
RESCINDED QUICKLY

The coal piles and warehouses on the waterfront will no longer be the sole view of Honolulu obtained by passengers going through on steamers to foreign ports. The tabu order which confined passengers and crew to these vessels while in port and barred every body else off the ship, "to prevent the transmission of unauthorized messages," has been lifted. Tourists with day in Honolulu can again wander about, look at the Pali and buy picture post cards.

## Cablegrams were received yesterday

by Collector of the Port Malcom A. Franklin rescinding the former order inasmuch as it applied to Honolulu. The ships will again be wide open to the order having remained in effect but little more than a week, and effecting but several vessels. Except that the state department made the request that Honolulu be excepted from the order, no reason for the special favor to Honolulu is indicated.

## The message reads:

"At request state department circular letter, twenty-five ultimo relative not permitting persons, foreign or United States ports and destined to United States outside the United States is cancelled so far as same affects your port."

(Sgd.) ROWE."

STRIKE SENTIMENT  
IN SPAIN SPREADING

## (Associated Press By U. S. Naval Communication Service)

MADRID, August 13.—The railway strike is becoming general throughout the country. Printers and masons are reported as having quit work in sympathy with the railroad workers.

WAR PROFITEERS ARE  
CHECKED BY SWEDEN

## (By The Associated Press)

STOCKHOLM, August 13.—The operations of foreign "goats" have been pretty effectively checked by a law that recently has gone into effect. Foreigners may not now buy war in Sweden for export without special license in each individual case. They are required to give security for the payment of taxes and are placed under supervision.

CHARITY BODY HAD  
STRENUOUS MONTHOne Hundred and Eighty-six Fam-  
ilies Cared For During  
That Time

The report of Edgar E. Brooks, manager of the Associated Charities, for the month of July, says that 186 families were cared for during that time. Seventy-five individuals also came into the work of the organization in that month, making a total of 478 persons who were helped out of difficulties of one sort or another.

Many families were assisted to the number of twenty-three, fourteen old families returned for aid, and 140 families were under the steady care of the association.

It is much harder to be a single transient man than a widow—three times as hard in fact. Nine of them came to the notice of the charities during the month.

Married couples had the hardest time of all. They came in droves, or at any rate to the number of eighteen. From statistics carefully compiled from this report by the office, it is eighteen times as hazardous to be a married couple as a widow or orphan, nine times as hard as being a deserted family, six times as difficult as being a widow, and only twice as perilous as to be a single transient man. Look over the list and choose for yourself.

Thirty-four individuals and eight families of the Portuguese race were cared for, while Porto Ricans, Chinese, Americans, and mixed races, treated were slightly less than the Portuguese total. By far less were the number of English, Hawaiian, Filipino, Irish, Spanish, Russian, German, and Korean looked after. There were no Japanese applicants for aid.

Doctor's care was secured for thirteen families; hospital care for ten, emergency relief was granted to twenty-two and regular relief to 130. The total value of relief given was \$117,640, and twenty-three different organizations and individuals gave aid to the charities, of which fourteen were asked to assist, and the rest volunteered their help.

The grand jury found a no bill in the case of the Territory against J. K. Moon, charged with perjury. Arraignment of those indicted yesterday will be made in before Judge Heen at nine o'clock this morning, which time it is expected that the defendants will plead to the charges against them.

HONOLULU OIL STOCK  
IS MARKED UP HIGHERMainland Price Advances and  
Local Quotation Follows

Advance in quotations on Honolulu Oil was the most interesting feature of yesterday's stock market. On the mainland it sold at \$4.70 and that was the signal for the marking up of prices here although no news as to the cause of the advance was received. It is said that a subcommittee of the Council of Defense has reported in favor of the leasing law plan and on this basis there is an expectation of the Honolulu company receiving its patents at an early day.

In the listed stock market Onuma sold 50 cents below the last recorded sale and this was the only change in prices. Sales between boards were 150 shares at the season 297.

The only other change besides Oil of the unlisted stocks was Madera, one cent, to forty-five cents.

RUMORS PERSIST OF  
ENEMY RADIO PLANT

## (Associated Press By U. S. Naval Communication Service)

WASHINGTON, August 14.—Reports of the existence of a German radio station and a base at which supplies for submarines are stored at some point on the Mexican coast, along the Gulf of Mexico, persist. It is probable that airplanes will be sent into the suspected waters and a systematic search made.

SUGAR IS EASIER IN  
MARKET IN NEW YORK

## (Associated Press By U. S. Naval Communication Service)

AN easier sugar market in New York with a tendency towards speculation in prices is reported to Alexander & Baldwin in a cable received yesterday from its New York house. The message reads:

"Market easier and apparently due for some reactions. Sellers offering for August and September at \$7.75. Random sales for September at \$7.65. Withdrawals by buyers. Considerable quantity raws for August and September purchased, and also refined."

SWIPED FACE-WIPERS,  
GETS TERM ON REEFIt has been said that cleanliness is  
next to godliness, but Louis Gomez  
disputed this.

Gomez pleaded guilty in the police court yesterday morning to swiping five towels, valued at two dollars and a half, from the Sunset Barber Shop, and was sent to the reef for a month by Judge Irwin.

Incidentally when the loss of the face-wipers was discovered the proprietor of the silent whisker mill, aided and abetted by the entire staff of tonorial artists and two shoeblacks broke the golden rule of silence to such an extent that an uninformed passerby came near turning in a riot call.

DIVORCE SUIT HAS  
GRAND JURY ANGLEMartin B. Godwin, Kaimuki Car-  
penter, Indicted Yesterday On  
Statutory Offense Charge

Martin B. Godwin, a carpenter residing at 1923 Eighth Avenue, Kaimuki, was indicted yesterday by the territorial grand jury and charged with a statutory offense alleged to have been committed on September 1, 1915, with Lily Kuhlman, a girl then under fifteen years of age.

Mrs. Johanne Sophie Godwin, wife of the man indicted, and Lily Kuhlman were before the grand jury yesterday. The women wept tears copiously when they emerged, one at a time, from the jury room. The two women have been recently in Kauai.

Some weeks ago Mrs. Godwin brought suit for divorce against her husband. Recently Godwin filed his answer, denying the charges made against him in the indictment and filed at the same time a cross bill. In this cross bill he accused his wife with having violated her marital vows naming Alexander Butta, private in the Third Company, Coast Artillery Corps, Fort Ruger, as the correspondent.

Four other indictments returned by the grand jury yesterday were as follows:

Jose Villanueva, Filipino, charged with second-degree burglary. Villanueva is accused of having broken into an outhouse in the premises of Judge James L. Coke of the supreme court on July 26 and from there taking with him several articles of value which did not belong to him at all.

Sam Peters, chauffeur, charged with forgery, he being accused of forging the name of Francis H. I. Brown to a check for thirty-eight dollars and fifty cents on July 23.

Albert Manners, former express man, accused of forging the name of J. A. Victor on a check for two dollars and a half on July 10.

Leon Hilan, charged with assault and battery with a deadly weapon on Francisco Loyosa on July 10. Another Filipino, said to have been connected with the alleged cutting affray, was not indicted.

The grand jury found a no bill in the case of the Territory against J. K. Moon, charged with perjury. Arraignment of those indicted yesterday will be made in before Judge Heen at nine o'clock this morning, which time it is expected that the defendants will plead to the charges against them.

NEXT BOMB TRIAL TO  
BEGIN SEPTEMBER 11

## (Associated Press By U. S. Naval Communication Service)

SAN FRANCISCO, August 14.—The trial of the next defendant in the Preparedness Day bomb outrage has been set for September 11. District Attorney Fickert states that it has not yet been decided who of the ones under indictment will then face the jury.

IN THE CIRCUIT COURT, FIRST  
TERRITORY OF HAWAII—TREAS-  
URER'S OFFICE, HONOLULU,  
OAHU.In Re Dissolution of the Waimea Ma-  
chine and Automobile Works, Ltd.

Whereas, The Waimea Machine and Automobile Works, Ltd., a corporation established and existing under and by virtue of the laws of the Territory of Hawaii, has, pursuant to law, in such cases made and provided, duly filed in this office a petition for the dissolution of the said corporation, together with a certificate thereto annexed as required by law.

Now, therefore, Notice is hereby given to any and all persons that have been and are now interested in any manner whatsoever in the said corporation, that objections to the granting of the said petition must be filed in this office on or before 12 o'clock noon of September 24, 1917, and that any person or persons desiring to be heard thereon must be in attendance at the office of the undersigned, in the Executive Building, Honolulu, at 12 o'clock noon of said day, to show cause, if any, why said petition should not be granted.

HENRY C. HAPAI,  
Acting Treasurer Territory  
of Hawaii.

Honolulu, July 2, 1917.

SUPERVISORS ARE  
RUFFLED AGAIN  
OVER PATRONAGEBut Republican Solid Five Stands  
Pat and Efforts of Bourbons To  
Start Something Are Nipped In  
the Bud

A breeze sprang up in the hot council chamber of the city dais at last night's meeting, when the standing committees submitted for approval vouchers for claims entered against the various funds for July and August. Among those claims were those of the city engineer, building inspector, electric light department, fire department, janitors and purchasing agent, mostly for salary and payrolls.

Supervisor McClellan got up and announced that while he had no desire to filibuster, he could not see his way clear, under existing circumstances, to vote "aye" in the matter. He would approve vouchers on behalf of properly appointed employees, and not otherwise. The stand he took was, of course, based on the appointments of department heads by Mayor Fern and which are still in status quo.

Supervisor Hollinger said that the present heads of the various departments were effective officials and explained that the people had elected him and his colleagues to give them an efficient government and not to do petty politics.

McClellan came back to the effect that the people had elected him to do his little bit in the public interest and that he was going to do it to the best of his ability. The mayor was the appointment-maker, he said, and added that if necessary, the matter could be tested in the courts.

Supervisor Petrie recalled for Hollinger's benefit the time when the Democratic board was ousted from office, and wanted to know why it was that the Republican mayor made a clean sweep of department heads.

Hollinger retorted that this was done for the public good, whereupon Petrie remarked that what is sauce for the Democratic goose ought to be sauce for the Republican gander.

The vouchers were approved by a vote of five to two.

Bourbons Scramble  
For Job Vacated  
By Haley's Death

Clarence Pringle Thinks It Might  
Compensate Him For Loss of  
Mayoralty While Alvin Blom  
and Other "Deserving Demo-  
crats" Have Hopes

With "Jim" Haley, collector of internal revenue, passed on, the usual scramble for his job has already begun, and all the "deserving Democrats" in town not otherwise better provided for are casting envious eyes on the vacancy created by the death.

Prominent among those with hopes is Clarence Pringle, recently hopeless candidate for mayor, lost recently an employee of the internal revenue office when Walter Drake was collector. Pringle is reported to be running around seeking endorsements for the job. This is a game at which he might be considered an adept, as he has at various times before tried, with signal success, to land it.

Alvin Blom, who was another hopeless candidate on the recent Democratic ticket, is also reported to be trying to land the job. Mr. Blom is a newcomer in local politics.

A report was current yesterday, but could not be confirmed, that Ralph Johnstone, for several years first deputy in the office and now acting collector, might be endorsed for the position by the chamber of commerce. Johnstone has been an extraordinarily efficient subordinate, but he is a Republican and has never been active in politics.

In view of the fact that the position of revenue collector is generally regarded, not only here but throughout the United States, as a political plum, particularly during the past several years, Johnstone's chances, despite whatever qualifications he may have, are viewed as slimmer by the politically wise.

Among Democrats prominently mentioned for the position, Palmer F. Wood, private secretary to Mayor Fern, is considered to have the best chance. He has a host of friends who would be gratified by his appointment as collector of internal revenue.

But, as above stated, the position of collector of internal revenue has come to be looked upon, particularly by the present administration, as a reward for some mainland Democrats.

WANTS TRANSLATION  
ALSO TO BE PUBLISHED

## (Associated Press By U. S. Naval Communication Service)

WASHINGTON, August 13.—Senator King of Utah today introduced a resolution which would prevent the publication by newspapers of war news or comments on political events in a foreign language unless they carry a translation of said news or comments in a parallel column in English.

The resolution also calls for the deportation of internment of disloyal residents in the United States whether citizen or aliens.
